ABOUT

ABOUT ME

Web Developer, Programmer, and Digital Marketer with UI/UX Design Skills

I'm a 28-year-old professional with more than a decade of programming and robotic simulation experience. At 14, I started with C-based languages and later specialized in robotics as a team member, leader, and referee. I'm honored to have served in Iran National RoboCup Committee as the head of one of the leagues. I ventured into web development at 16, focusing on front-end design, and added SEO expertise at 19. I'm dedicated to staying current and delivering innovative digital solutions.
